NEIGHBORHOODS, USA

INTRODUCTION

MISSION STATEMENT

Neighborhoods, USA ("NUSA") provides opportunities for diverse people and organizations to share their ideas, values and experiences to build stronger communities.

ABOUT NUSA

NUSA is a national non-profit organization committed to building and strengthening neighborhood organizations. Created in 1975 to share information and experiences toward building stronger communities, NUSA now continues to encourage networking and information sharing to facilitate the development of partnerships between neighborhood organizations, government and the private sector.

The organizational mission of NUSA has, since its inception, been to build and strengthen neighborhood associations and to promote productive communications and collaborations between those associations and both the public and private sectors. The organization has, for over thirty years, served these broad objectives in part through the conduct of an annual conference. This provides an opportunity for people from all locations, sectors and levels of society to discuss the pressing issues of the times, share experiences and offer encouragement or assistance.

Today the organization maintains a stable membership base of approximately 600, with annual conference attendance that ranges from 600 to 800 participants. Each year the Board solicits nominations to recognize the commitment of neighborhoods, governments, businesses, and neighborhood friendly individuals or enterprises in awarding "Neighborhood of the Year" (NOTY), Who's Who in America's Neighborhoods, Dawson awards, when applicable and "Best Neighborhood Program" Awards.

The NOTY awards have been presented since 1984 as a collective "thank you" for the hard work of nominated neighborhoods and are the only national awards given on an ongoing basis to neighborhood organizations for their self-help initiatives.

NUSA also publishes three newsletters per year targeted to the needs and interests of neighborhood-based organizations and is pursuing new programs and initiatives in response to the evolving concerns of its membership.

NUSA is governed by a 21-member Board of Directors, elected annually to staggered terms to serve voluntarily and at their own expense. The Board directs the ongoing business and policy of the organization, provides oversight for the implementation of each conference and plays a leadership role in promoting both our organization and the work of neighborhood-based activism and self-help initiatives.

NUSA MEMBERSHIPS

NUSA offers memberships in the following categories: City / County Membership, Individual Membership, Corporation Membership, Youth Membership and Affiliate Membership. Please go to www.nusa.org and click on the Memberships link on the left side. (Membership Applications are attached)

ABOUT THE NUSA ANNUAL CONFERENCE

The annual conference is this organization's primary means to accomplish its purposes. The conference brings together people from across the country and internationally in a kind of "temporary community" based upon the common goal for achieving and maintaining healthy neighborhoods, families and social institutions. The format of the conference provides a variety of informal and formal, structured and more social interactions among participants. Established features of the conference include opening and closing events, speakers, the presentation of awards, the conduct of training workshops, networking events, exhibits, neighborhood tours and other tourist-oriented activities.

The value of attending the conference lies in the opportunity to meet people who at first may not seem much like us, from communities that consider themselves at least as unique as our own. We have discovered in our coming together that there is so much that we have in common, a lot we must teach one another and a surprising degree of hope and pride to be found in these connections. Participants return home fortified with new information, new contacts and a renewed sense of commitment.

The value of hosting the conference is in showcasing the strength of your civic infrastructure, the assets and accomplishments of your community, and yes, it promotes economic activity. Beyond this and of a more lasting benefit, it tests and develops your community's capacity for purposeful, collaborative action. In selecting its conference host entities NUSA looks particularly for those communities that evidence a strong commitment from the local neighborhood leaders and a system of neighborhood organizations that are working closely with local government, business, and civic groups.

The logistics of planning, coordinating and administering a national conference of this type are not to be taken lightly. It is challenging, and it is uniquely rewarding. Few communities are ever quite the same after a NUSA conference, they are better for the experience.

NUSA TRADITIONS AND PROTOCOL

Through the years they have developed certain features to the NUSA conference that have become standard or traditional. While this has occurred in part due to the ease and habit of what has grown familiar, there is also an evolved tendency for "sticking with what has worked", and generally worked well. While NUSA would not want to discourage a host entity from being innovative or creative, variations to or departures from these "traditions" are not made without the knowledge and support of the NUSA Board.

Some of these include the following:

- The NUSA annual conference has usually been held the week before Memorial Day, beginning on Wednesday with registration and concluding on Saturday with the closing luncheon.
- The NUSA flag is passed (literally) from the current to next host entity coordinators at the Saturday luncheon.
 - The NUSA logo (in specified colors or black and white) must appear on all conference literature, collateral and promotional items.
- Neighborhood Tours and dinners are a key element of the whole conference experience. Interaction with the host entity residents, in their own neighborhoods helps us all to stay in touch with the values and purposes of our organization. • NUSA supports all efforts to conserve and preserve our natural resources. Conference cities are required to be sensitive to the importance of recycling/recyclables in all aspects of the conference operations.
- An exhibit area for local and out-of-town organizations or vendors is encouraged and may be provided as a means for facilitating interaction, networking and collaboration.
- The conference registration fee will include an amount identified as a NUSA fee (amount to be determined by the NUSA Board).
- Local registrants may be admitted at a reduced fee. However, the full NUSA membership fee will be included in this reduced fee. Host cities are required to solicit sponsors to cover operation and event expenses.
- Major sponsors requiring any addition of their logo to conference items and material must first have NUSA Board approval.

HOST ENTITY REQUIREMENTS

A separate document addressing the responsibilities of NUSA and the Host City, titled Host Entity Requirements and the Hosting A Neighborhoods, USA Conference Handbook are included with this Host Entity Bid Package. SECTION A: COMMITTEE STRUCTURE

At the initial meeting of all committees, please dedicate some time to explain the purpose and mission of the Neighborhoods, USA organization. It is also suggested you explain thoroughly how past conferences have operated. This is an opportunity to build excitement among those who will be working on the conference. It is worth noting that people will be traveling from across the United States, Bahamas, Japan and Canada to participate. It is an incredible chance to showcase your neighborhoods, municipality and region.

1. SPONSORSHIP

A log should be maintained with every sponsorship contact to be made, including organization name, contact person, address, phone number, and email, if available. This log should be updated each time correspondence is sent or received and when follow up contact has been made.

Sponsorship packets should be accompanied with a cover letter with a Mayoral or Municipal Managerial signature.

The Committee must keep track of both cash and in-kind donations. The differentiation should be made in sponsor packages, to eliminate paying for expenses of in-kind sponsors who do not actually donate cash. In-kind contributions can greatly reduce conference related expenses.

The Committee must also track and manage the perks and gratuities offered at each sponsorship level, for example advertising opportunities, complementary tickets, etc.)

2. EXHIBITOR

The Exhibitor Committee is responsible for managing the relationship with interested exhibitors. Exhibitions add revenues to assist paying for related conference costs. After knowing the price for set-up (table, skirting, etc.) establish a fee that will allow you to make a profit from each space sold.

The Committee is to send out communication to various prospective businesses with necessary information for the reader to decide, including the times the Exhibit Hall will be open to the participants. An attached form will allow the prospective exhibitor to commit and make needed plans.

The Exhibitor Committee should keep track of all prospective exhibitors who have been sent information and follow up with a second letter.

3. NEIGHBORHOOD PRIDE TOURS

The Neighborhood Pride Tours Committee will be responsible for choosing the most interesting tours to showcase the area. Bearing in mind that this is a "neighborhoods" conference, neighborhoods should be a primary focal point of all tours. Correspondence should be sent out to prospective areas to let them know you are interested in having them put together a tour. The initial communication should have a date, time and where this informational meeting will take place.

Again, a log should be kept as to who is being sent initial correspondence and who is responding. For anyone not replying to the initial correspondence, the committee should follow up with those areas that are known and would be able to put together a memorable neighborhood pride tour. This can be several adjacent neighborhoods.

At the first meeting a tour checklist should be handed out and explained.

When the neighborhood tour description is approved, you should know if the tour is a bus, walk, bike, boat, etc. This information is included in each tour description by either using words or symbols in the Registration Book.

4. SOCIAL EVENTS AND MEALS

The Social Events and Meals Committee's responsibility is to create menus for any meals and social events. This would include, and not be limited to, creating a good atmosphere within the environment being used. (i.e. centerpieces, plants / flowers, etc.).

It is important to be able to accommodate large numbers of participants entering and exiting at the same time in the room or area being used.

Menus should always include accommodation for those who have special diets, i.e. vegetarian, vegan and kosher.

It is imperative to remember any buffets where large numbers of participants will be involved at once should include at least enough serving lines to get everyone through in 15 minutes.

Any speaking / presenting taking place should be monitored by this Committee to keep the conference on its timeline. A time schedule should be printed and followed.

5. WORKSHOP SUPPORT

Workshop Support Committee assists with workshop set-up, evaluation, execution and clean-up.

7. REGISTRATION BOOTH

The Registration Committee will be responsible for setting up the registration area at the conference center and distributing the materials to the participants.

Note: The area being used should be an area that can accommodate a large crowd at any one time, without blocking off normal traffic flow in the space being used.

Could have a registration packet separate from the NUSA Conference bag and give participants at the registration area a ticket and they can move to another area to retrieve their NUSA Conference bag. This keeps the flow of traffic to a minimum around the registration area.

Some have used a large common area for the start of the conference and then moved into a registration booth area once the crowd was through on the first morning of the conference.

8. VOLUNTEERS

The Volunteer Committee will be responsible for recruiting volunteers as the need is necessary for the varied events (pre-conference, during conference and post conference).

The Conference Coordinator should request a list of how the volunteers were scheduled and used from the previous year to start and then make the necessary changes as the next year's conference starts to be created and scheduled.

Volunteers should all have the same colored, stand out shirts on to be easily located and available for participants to request assistance.

NOTE: Volunteers can make or break a conference.

Volunteers should plan to attend one of a few offered scheduled volunteer seminars at the conference center just prior to the conference starting. They should be given information pertaining to the history of what NUSA is and how the conference will flow and who will be in attendance.

Recruiting works best by having a group, i.e., the Lions Club commit to volunteering for the handing out of the NUSA Conference bags. Or a Historical Society volunteer to collect and gather all the evaluations for workshop sessions. Or the ROTC volunteers to assist with the departing of the Neighborhood Pride Tours.

9. SPEAKERS – GUEST OR KEYNOTE

This Committee will be responsible for locating any Keynote or Guest Speakers who will be speaking during any of the social events, including meals. Speakers should always be focusing their information around issues that are important to neighborhoods. Lastly, the Program Development Committee Chair should be included on the Host's proposed Keynote Speakers.

There needs to be a minimum of 23 chairs at the perimeter of the tables. The table that connects the “U” together at the bottom, is for the President, Vice President, Secretary and Treasurer. Elsewhere in this room there are to be a minimum of 20 chairs set up to allow for any of the membership to sit in on the Board of Directors meetings. This room should be large enough to allow 10'-15' between the Board of Directors area and membership sitting area.

This room must have electricity available for the Neighborhoods, USA Administrative Assistant to hook up for the recording of the Board of Directors meetings.

The room also is to have the American flag behind the area where the Executive Board members are seated. As you face this area, the American flag should be placed to the left side.

BANQUET HALL

The banquet hall should have enough entrance space available to accommodate getting the participants in and out of that room within a ten-minute time-period.

This room is to have a stage that is 30” in height and the stage area (24’ wide by 12” deep) set up as follows; stage to be centered on the wall or partition that is behind, stairs on both sides, a lift or ramp to be accessible as the need arises.

The front of the stage should be aligned with a podium centered. The podium is to have a microphone that can be moved if necessary.

The stage area will require an American flag at the left side of the stage as you face the stage. State, local flags and the NUSA flag to be placed at the right-side rear of the stage as you face the stage area. The back of the stage area shall have pipe and drape of 8’ in height. The NUSA Conference “Welcome” is to be hung on the pipe and draped. Host to furnish hooks and accomplish this task.

Banquet halls will need necessary equipment and operating staff to maintain appropriate volume limits as needed.

Space between the stage and first row of tables should allow for folks to sit comfortably. The table set up is usually rounds that seat eight or ten. If numbers of participants are low, then banquet hall tables should be set up so those seated are all able to face the stage, crescent style.

The front row tables shall be used for any "Reserved" spaces needed during the conference, i.e. participants from the awards judging, etc. Appropriate signage for the requested number of seats/tables is required.

Lighting for this room should be appropriate to not become a safety issue and to allow for the stage area to be the main focus once participants are seated, with a spotlight directed at the podium.

NEIGHBORHOODS, USA CONFERENCE SOCIAL EVENTS / MEALS

Any receptions with food or buffet meals should be set up to allow for enough serving lines to accommodate the number of participants that will require getting through the food line area in an appropriate amount of time. This will vary based on the number of registrants participating in the conference. Host Entity coordinator will check with the appropriate Board of Director as we near the start of the conference.

NEIGHBORHOODS, USA WORKSHOP PRESENTATION ROOMS

The workshop rooms, in general, should be set up theater style with an aisle on each side and down the center.

If a workshop room is on the large side, a microphone will be required so that all participants can hear presentations easily.

Any workshop room needing to be set up differently will be notified to the Host Entity coordinator prior to the start of the conference by the appropriate Neighborhoods, USA Board of Director.

NEIGHBORHOODS, USA GENERAL MEMBERSHIP MEETING ROOM

The Banquet Room/Hall shall be used for the General Membership Meeting.

A podium with a microphone shall be centered on the stage with skirted tables on each side of the podium to accommodate the NUSA Board of Directors Executive Committee.
